

J. Michael Carson P.E. graduated from Purdue in 1974 and has over 35 years in the HVAC and Plumbing industry. During that time he has developed and taught numerous training programs. Mr. Carson is currently employed as the Senior Mechanical Engineer at Purdue University where he is the primary resource for the Indiana Mechanical and Energy Conservation Code. Mr. Carson is currently serving as the secretary for the State Plumbing Code Revision Committee.

Mr. Carson is supporting the Indiana Code Training project as a consultant to Newport Ventures. He has assisted in the development of the training curriculum and serves as a trainer for some of the courses. Through his long-term involvement with Indiana codes, Mr. Carson contributes the following expertise:

1. An understanding of the development of ASHRAE Standards, especially Standard 90.1;
2. An understanding of the application of that Standard to some aspect of the building design, which may include the envelope, HVAC, service water, power, or lighting systems; and,
3. An understanding of the Indiana amendments of Standard 90.1.
